Policies for Meridian Public School

This manual contains policies and regulations for the Meridian schools. Policies (blue paper) are board-adopted items which describe “what” the schools will do. Regulations or rules (yellow) describe “how” our clients will do them. The board formally adopts each policy and in general approves all regulations or rules as long as they are not inconsistent with board policies.

The last series (9000) of this manual contains the bylaws of the board which are rules governing board of education behavior and methods. This particular section is designed to keep board operations consistent with the law and to help maintain consistency and order in the way that the district conducts its business.

Policy Adopted:
