

The Student Asthma/Allergy Action Plan has some important updates:

- ⇒ There have been some updates to the language in the interest of health literacy as our understanding and knowledge continues to grow.
- ⇒ Medications have been updated to reflect what is currently on the market.
- ⇒ There is a **new** check box and line for health care providers to check which instructs administration of epinephrine immediately upon ingestion of a known allergen.
- ⇒ The check box stating that you have reviewed the use of medications in order for a student to self-manage at school **MUST NOW BE CHECKED.**

The Student Asthma/Allergy Action Plan has two pages:

- Page 1 is for the physician to complete and sign.
Health Care Providers—please give your patients **BOTH pages!**
- Page 2 is for the parent/caregiver to complete and sign.
- **This action plan is only valid for students in K-12 grades.** If they are younger or older, please use a different action plan.

EMPHASIZE THE FOLLOWING TO YOUR FAMILIES AND PATIENTS!

*In order for the school to have all the information needed, **both** pages should be completed and presented to the school, **along** with their prescribed medications.*
